what's new for 2009

MORE GREAT ADDITIONS TO OUR EXTRAORDINARY LINE

NEW! A commitment to performance is the cornerstone of the iconic athletic brand, adidas®. Perfect for golf outings and other corporate events, the functional appeal of this easily recognized brand is matched only by its innovation.

BAYSIDE™
MADE IN THE USA

NEW! Specializing in basic to work apparel, Bayside's garments are built to last, perfect for both work and play. And every single high-quality Bayside item is proudly made right here in the USA.

NEW! This is basics with an edge. The lightweight, easy-to-wear sweatshirts from Independent Trading Co. are made from the softest fleece, and this exciting brand continues to introduce hip new styles, season after season.

Toward a better future **eco**

Every year, we find more and more of our customers are looking for eco-friendly apparel products. It's a trend we hope never goes out of style. In fact, we believe it's really a way of life and a reflection of how we treat each other and the world we live in. We support the efforts of all our vendor partners who continue to explore new, environmentally-friendly methods of manufacturing, such as:

Organic Cotton Organic farming systems replenish and maintain soil fertility, while reducing the use of toxic and persistent pesticides and fertilizers.

Bamboo Bamboo fabric is a soft, strong textile made from bamboo pulp. The bamboo plant grows quickly and thrives naturally without the use of pesticides and fertilizers.

Recycled Fleece Made from a variety of post-consumer recycled fibers, including pop and water bottles, recycled polyester tech-fleece is chemical- and additive-free.

Recycled Cotton Manufactured without land use or new dyeing, recycled cotton products use pre-consumer textile waste from apparel cuttings, discarded yarn and industrial fibers that are sorted by color and spun into new yarn.

Cocona Using activated carbon derived from coconut shells, the woven fibers of this technical performance fabric naturally kill bacteria and help protect against UV rays.

Look for the  icon throughout the catalog for the brands that offer organic, recycled and earth-friendly apparel and accessories.
